Editor Commentary

When did this country start paving its roads? Who were the people demanding pavement in place of dirt, gravel, and mud? Well, back around the turn of the century, the late 1800's and early 1900's, the drivers of the most popular vehicles were the loudest advocates for this change. What sorts of vehicles were they? Bicycles! Cars were pretty rare around that time, but it was the bicyclists or "wheelmen" as they were called, whose voices demanded improved roads with real pavement that would make for safer riding. The effort was called the "Good Roads Movement." It was a nationwide, political movement to get our roads paved. The League of American Wheelmen, somewhat comparable to the AAA of today, published a monthly magazine called "Good Roads" to promote the idea of improving the streets of our country.

Speaking of bicycling, in addition to being fans of Studebakers and other old cars, Guadalupe and I are also bicyclists. We try hard to share the road and not become an interference with the flow of motor traffic, but once in a while we will encounter someone behind the wheel of a car who resents us for occupying what he or she believes is a roadway made for cars, not for bikes. Maybe such people should stop and think for a moment that the pavement they enjoy was brought about by people like us who rode bicycles, not cars. Naturally, the volume of cars has increased through the years, and the roads of today are tailored for motor vehicle traffic, not so much for bicycles. But let's not forget how it all started. The "wheelmen" of a hundred-plus years ago were the ones that started the whole effort to get our roads paved. So the next time you're cruising along a nice, smooth, well-paved road in your Studebaker, thank a cyclist.

By the way, the League of American Wheelmen still exists today under its revised name, the League of American Bicyclists, and its focus is on bicycling in general rather than on the improvement of roads.

Recipe Corner - Thanks to Janet Alspach for the following recipe:

Double Chocolate Bundt Cake

1 box Duncan Hines devil's food cake mix	1 cup sour cream	1 tsp. instant espresso or coffee
1 package instant chocolate pudding	$\frac{3}{4}$ cup water	2 tsp. vanilla
4 eggs	$\frac{1}{4}$ cup vegetable oil	6 ounces of chocolate chips

Preheat oven to 350 degrees. Mix cake mix and pudding. Add remaining ingredients. Beat well. Stir in chocolate chips. Pour into well-greased Bundt pan. Bake for 45 to 50 minutes. Let cool for 20 minutes. Turn on to wire rack and cool completely.

North Georgia Chapter SDC Minutes
Sunday, August 7, 2016
Annual club picnic at Fort Yargo State Park, Winder, GA

Standard Items:

- President Wayne Ziemer called the meeting to order at 2:55 p.m. He thanked Billy and Charleen Carey for hosting the meeting at this location again this year. The sign-in sheet was passed around to all attendees.
- Janet Alspach moved, Ben Alspach seconded, to approve the June minutes as published in the Hillholder. Motion carried.
- Approval of the treasurer's report was postponed until the next month due to a couple of minor errors.
- Wayne Ziemer congratulated club members with birthdays or anniversaries in the month of August.

- Howard "Hobo" Bodkin is bedridden following an injury suffered while climbing stairs.
- Linda Fisher is battling cancer.

Old Business:

- The club has a large collection of Turning Wheels issues. Suggestions as to what to do with this collection are welcome.
- Ben Alspach presented the completed banner that the club can now use to make onlookers aware of our presence at our meetings and to encourage questions and interest in the club. Ben was congratulated for the good work.
- We have club shirts in sizes Medium, Large, and Extra-Large. They can be purchased for \$15 as a first-time purchase or \$30 in the case of replacing a shirt purchased earlier.

New Business:

- We need volunteers for the positions of President and Vice-President of the club starting in January of next year.

Reports:

- Barbara Miller, Treasurer, reported a balance on 7/01/2015 of \$4712.64. Balance on 7/31/2016 was \$4809.64. Full report appears on page 3 of this Hillholder.
- Jim Carto, Membership Secretary, provided members with new membership cards. Special thanks to Charlotte Delli for printing these attractive cards.
- Tim Taylor, Hillholder Editor, had no new Hillholder news to share.

Adjournment: Motion to adjourn was made by Alan Ziglin, seconded by Terry Ziemer at 3:18 p.m. Motion carried. Door prizes were generously provided by our hosts, the Careys. John Clark won the 50-50 drawing; the club banked \$46.00.

Next Meeting: The September meeting will be held at Charlie's Italian Restaurant & Pizzeria in East Ellijay. Details are provided on page 7 of this Hillholder.

John Clark was a busy guy at the annual picnic. He took two trips to the door prize table to pick items for friends seated near him whose ticket numbers were drawn, then he picked one for himself since his own number was drawn, and finally he won the 50-50. Are you available to pick some lottery ticket numbers for me, John?

TECH TIP

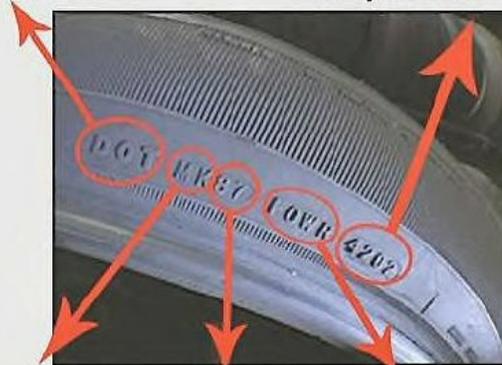

RADIAL TIRES FOR YOUR STUDEBAKER

Radial tires work very well on Studebakers; however, there have been reports that using radial-ply tires on original Studebaker wheels for prolonged periods could cause the tires to crack. This might be due to the rim width being too narrow for the tire. Studebaker supplied only narrow-width wheels, and a wider replacement would need to have the same wheel lug pattern, such as the wheels found on older rear-wheel-drive Fords and Chryslers. In selecting a radial tire replacement for your Studebaker, choose the tire that is the closest to the original size for wheel well clearance. Keep in mind that tire size can affect your speedometer readings, too. After changing to the radial-ply tires, a wheel alignment might be a good idea since the original factory toe-in specs are different than what's needed for radial tires.

When purchasing new tires, make sure that the tires are as "fresh" or new as possible. Ask the shop sales personnel to show you the tire ID code. Due to distribution time after the tires are made, the tires may be several months old or even older when they arrive at the tire store. The diagram below shows how to interpret the information printed on the tire itself.

DOT: Tire meets DOT safety standards.

4202: Week & year tire was made -- 42nd week of the year 2002

MK: DOT's tire plant code

87: Tire size code

FOWR: Manufacturer symbol identifying tire brand

SOME THOUGHTS ON RESTORING A STUDEBAKER

Written by Chuck Lampman, this 99-page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included in the book as well as updates and several new items written after the *Turning Wheels* series was published. "Some Thoughts" is aimed at the first time restorer but will be of value to the more experienced. It is not intended to be a "how to restore" book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage. Payment can be

made through PayPal sent to chuck@lampman.com or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293.

Contact Chuck Lampman directly for purchases outside the continental U.S.

1955 "E" series pickup street rod. The truck has a 1978 Oldsmobile front clip on it, a 305 GM V8 coupled to a turbo 350 Trans. It has a Dana 44 rear end that is really a good match for the turbo 350 (good highway cruising). It has power disc brakes on the front and power steering (both GM); we have repainted it, re-upholstered it and put all new radials and Cragar rally wheels on it. Call Allan Dias at 407-585-3200 or email to <mailto:atd@wiginton.net> for details. (Cosby TN)
