## Studebakers South of the Border

By Guadalupe Taylor

As a child, I was not interested in cars at all. Nevertheless, I remember very well my aunt's and uncle's cars, which were Studebakers. I remember the shiny and "pointy" nose of my aunt's car, which she called "Blueish" because of its color. But I just called it the rat. My uncle owned a car that I simply called the yellow Studebaker, but I believe it was a Golden Hawk. They really loved their Studebakers.

There are three car museums in Mexico, and each one has "gems" owned by different persons. The *Museo del Automóvil*, located in Mexico City, was opened in 1991 by Arturo Perez Gutierrez. The collection includes more than 120 cars of numerous makes. You could also visit the *Museo de Autos y del Transporte* in Monterrey, which shows cars from the early 1900s into the '60s. It has more than 60 cars from around the world. The third museum, the *Museo del Automovil de Puebla*, is located in the city of Puebla.

The love of Studebakers has transcended borders. Those cars have been popular not only in Mexico but all over Latin America. Through the years, countries like Colombia, Chile, and Argentina have shown their passion for Studebakers as well as other old cars. For example, Bernardo Eggers Reccious owns the *Auto Museum Moncopulli*, the first museum of classic cars in Chile. It is mostly dedicated to Studebakers and has Chile's biggest collection of post-war vehicles. Visit <http://www.moncopulli.cl/index.php/galeria> for more information on this collection.

On the following page are a few photos representing the museums mentioned in this article. Enjoy!

**Recipe Corner** - Thanks to Hellen Attaway for the following recipe:

### Buttermilk Pound Cake

1 cup butter or Crisco  
3 cups sugar  
3 cups plain flour  
1 cup buttermilk

1/3 teaspoon soda  
5 eggs  
1 teaspoon vanilla

Cream butter and sugar until smooth. Add eggs one at a time, beating well after each addition. Stir the soda into the buttermilk and add alternately with the flour. Add vanilla flavoring. Pour into well greased tube pan and bake for 1 ½ hours in a 325-degree oven.

\*\*\*Suggest checking the cake after 1 hour for doneness.

## Philosophy Corner

This is a story about four people named Everybody, Somebody, Anybody, and Nobody. There was an important job to be done, and Everybody was asked to do it. Everybody was sure that Somebody would do it. Anybody could have done it, but Nobody did it. Somebody got angry about that because it was Everybody's job. Everybody thought that Anybody could do it, but Nobody realized that Everybody wouldn't do it. It ended up that Everybody blamed Somebody when Nobody did what Anybody could.

*Thanks to Charleen Carey for sharing this bit of philosophy that we can all appreciate.*

## SOME THOUGHTS ON RESTORING A STUDEBAKER

Written by Chuck Lampman, this 99-page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included in the book as well as updates and several new items written after the *Turning Wheels* series was published. "Some Thoughts" is aimed at the first time restorer but will be of value to the more experienced. It is not intended to be a "how to restore" book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage. Payment can be

made through PayPal sent to [chuck@lampman.com](mailto:chuck@lampman.com) or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293.

Contact Chuck Lampman directly for purchases outside the continental U.S.

1955 "E" series pickup street rod. The truck has a 1978 Oldsmobile front clip on it, a 305 GM V8 coupled to a turbo 350 Trans. It has a Dana 44 rear end that is really a good match for the turbo 350 (good highway cruising). It has power disc brakes on the front and power steering (both GM); we have repainted it, re-upholstered it and put all new radials and Cragar rally wheels on it. Call Allan Dias at 407-585-3200 or email to [mailto:atd@wiginton.net](mailto:mailto:atd@wiginton.net) for details. (Cosby TN)
