President's Message

This is the last President's Message that you will have to hear about the problems of trying to keep an 80+ year-old car on the road. My term as President ends at the December Meeting, so please be thinking about taking your turn as president, especially if you have a loud voice. It's not really a bad job, the President's Message is the only thing that takes much time and it is optional. The Message takes me longer than most people because I am a very slow writer and bad speller. *[That's what editors are for - Tim T]*

Speaking of a worn out 80+ year-old car, I worked on the steering alignment on my Studebaker this month. I removed the driver's side front tire and looked over the adjusting mechanism. The eccentric pin that needs to be turned has a flat on it for a one inch wrench that is 1/4 inch thick. I said in last month's message that it was 1 1/4 or 1 3/8 inch but I remembered wrong from 10 or so years ago when I replaced the kingpins. The other end of the eccentric pin did not have a flat on it. I have a thin pair of channel locks that are a little thicker than 1/4 inch, but would grip the exposed pin. I loosened the 4 clamp bolts that keep the pin from turning after it is aligned. I used the channel locks on the smooth end of the pin and was able to turn it. The service manual said that neutral position for the pin was with the flat vertical so I turned the pin to that position and rough-checked the camber on the brake drum; it measured way negative. I then moved it back near where it was before I started, and it seemed to be a little positive measuring to the brake drum. I tightened the clamp bolts, installed the tire, lowered the jack, and bounced

the front end like they said in the book, before checking the measurement. I made the measurement by checking distance from the wheel rim to a plum line. The camber turned out to be zero degrees.

I had previously dusted off my old trigonometry book and used my old calculator with sine function, to determine that the distance difference (the bottom measurement minus the top) to the plum line for 1 1/4 degree positive camber on the 17-inch wheel was 0.371 inch or 3/8 (.375) inch. The specification for my car is positive 1 degree to positive 1 1/2 degrees. You don't need a multi-thousand dollar machine to do camber, all you need is a reasonably level floor and a good ruler. Caster, the kingpin tilt, is harder to measure but probably can be done. There is no adjustment for caster on my car, so I do not need to check it.

After checking, I then decided to check the passenger side before tearing it apart. It turned out to be positive one degree and that is within the specification. If I had checked the driver side before taking it apart, it probably would have been in specification. I have decided to drive the car a while before checking it again and resetting the driver's side.

- Loren Nelson -

Editor Commentary

Our November meeting was really special. Thanks go out to Henry and Loretta Malin for hosting the meeting and for bringing not one but two Studebakers to the meeting, including the Bill Frick Studillac. In case you don't know much about the Studillac, there is a bunch of information on the Internet. Just do a search and many links will appear. It was a treat to see that Studillac along with the copper-colored, modified '50 Studebaker in the parking lot. Thanks, Henry and Loretta for giving the group this special treat. Henry and his cars are featured on the front cover of this Hillholder.

Also, it was good to see David and Sharon Stone at the meeting. Many of you will remember that they used to be active members of the club, and it's great to see them back again.

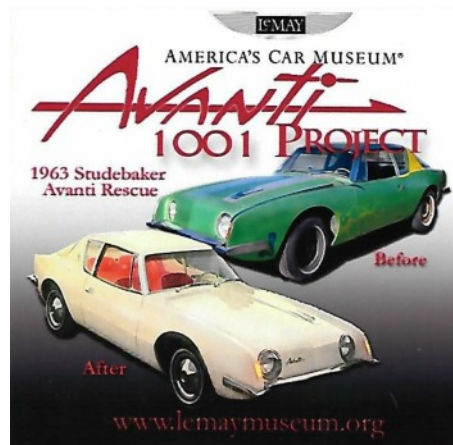

Check the minutes from the last meeting on page 5 of this Hillholder, and you'll read about some dash plaques that were given to our club chapter. At the bottom of this page are scanned images of those plaques. Do you own an Avanti and want one of the plaques? See page 5.

And now some new business: We need someone to step up to the plate and take Loren Nelson's place as president of our chapter. It's not a difficult or time-consuming job. As Loren says in his President's Message on page 2 of this Hillholder, the part of the job that takes the most time is the President's Message, which is totally optional. Terry Ziemer has kindly agreed to continue as vice-president, but we do need a volunteer for the president's spot.

Guadalupe and I hope to see all of you at the December meeting/party/dinner. We certainly plan to be there. Miss Dot's Diner and Sweet Shop was the location of our November meeting last year (2017), and everyone enjoyed the food, in particular the desserts. If you use a map or GPS and see an Auction House instead of a diner when you arrive, don't worry; you're in the right place. Just look for the door that is labeled "Miss Dot's."

In the meantime, we sincerely wish you all a happy Thanksgiving. Guadalupe and I will be spending ours with family in California, and we hope you have a safe and joyous Thanksgiving wherever you may be.

-Tim Taylor-

North Georgia Chapter SDC Meeting Minutes

Sunday, November 4, 2018

Provino's Italian Restaurant, Kennesaw, GA

Standard Items:

- ☒ President Loren Nelson called the meeting to order at 3:10 p.m. The sign-in sheet was passed around.
- ☒ Loren thanked our hosts Henry & Loretta Malin for arranging the meeting at this location.
- ☒ Barbara Miller moved, Guadalupe Taylor seconded, to approve the minutes of the October meeting, as reported in the November Hillholder. Motion carried.
- ☒ Loren Nelson congratulated club members celebrating birthdays or anniversaries in the month of November.

Reports

- Barbara Miller, Treasurer, provided reports for the months of September and October. Details can be found on page 4 of this Hillholder.
- Jim Carto, Membership Secretary, was unable to attend this meeting.
- Tim Taylor, Hillholder editor, reported that considerable money is being saved by enlisting Office Max to print our hardcopy Hillholders in black-and-white rather than using a personal computer printer to print the copies in color. Also, it seems that several club members currently have Studebakers for sale, and Tim encouraged them to send him pictures, descriptions, and prices so that he could include them in the Classified Ads section of the Hillholder.

Announcements / New & Old Business:

- Loren Nelson read a letter he received on behalf of the North Georgia chapter SDC from the LeMay Automobile Museum in Tacoma, Washington. The letter thanked our club for a financial contribution made some years ago to support the restoration of the very first Studebaker Avanti (serial number 1). Included with the letter was a wall plaque and a number of dash plaques showing the restored vehicle. Any club member who would like one of the dash plaques can contact Loren Nelson, our chapter president. The restoration began in 2011 and was just recently completed. On page 7 of this Hillholder, see the photo of Loren holding the wall plaque. On page 3 are scanned images of the dash plaques showing the two available styles.
- Rich Knoblock still has shirts to sell for \$5 each or \$10 each with your choice of patch. See Rich for details. He will bring some shirts to the December meeting.

Adjournment:

- At 3:41 PM, Ben Alspach moved, Frank Petru seconded, to adjourn the meeting. Motion carried.
- The 50-50 was won by Jim Loftin, and the club banked a total of \$42.

The next meeting of the North Georgia chapter of the Studebaker Drivers Club will be held on Sunday, December 2, at Miss Dot's Diner and Sweet Shop in Loganville. Details are provided on page 8 of this Hillholder.

The advertising party shall be solely responsible for the ad contents, although the newsletter editor reserves the right to reorganize ad contents, without changing facts, to best fit the space available.

CARS AND PARTS FOR SALE

1963 GT Hawk. New Rosemist paint, re-chromed bumper, new fuel pump, water pump, motor mounts, brakes, rebuilt carb, 289 2-bbl duel exhaust, automatic, manual steering and brakes. Original interior. From the Bill Tilden Estate. \$14,000. Richard, 770-775-2064

**SOME THOUGHTS
ON RESTORING A
STUDEBAKER**

Written by Chuck Lampman, this 99-page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included

in the book as well as updates and several new items written after the *Turning Wheels* series was published. "Some Thoughts" is aimed at the first-time restorer but will be of value to the more experienced. It is not intended to be a "how to restore" book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage. Payment can be made through PayPal sent to chuck@lampman.com or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293.

Contact Chuck Lampman directly for purchases outside the continental U.S.

1963 GT Hawk, 15,750 miles since overhaul, AC, new muffler, body needs work. \$3500. William Delli, 770-547-4897.

1954 Commander hard top. New paint, bumpers, brakes with finned front drums. Carb rebuilt, new Coker wide whites, original red vinyl interior. 232 V8 3-speed with overdrive. Most exterior chrome replaced with NOS. From the Bill Tilden estate. \$18,000. Richard, 770-775-2064

1956 Golden Hawk, \$19,995. Excellent appearance, excellent driving, always garaged, maintained by Studebaker mechanic, daily driver. Only reason selling making move and no place to house. This car is an eye catcher and people like to have their picture made with it! Chip Branch, 770-532-8993.

Studebaker Corral, p2 of 2

1910 Studebaker farm/grain wagon. \$3500. Good original condition. Includes single tree. Has been under cover or garaged since we bought it in 1984. The original owner bought it new in Marietta, GA. We are the second owners. Dan and Barbara Miller, 770-932-1615.

1962 GT Hawk. \$15,000. 289 V8, Flight-O-Matic transmission, power steering, factory air conditioning, white with red interior. We are the second owners. Dan and Barbara Miller, 770-932-1615.

Car Search: In 2002 I sold a red 1960 Lark convertible with a white top, 259 V8, Flightomatic, and an internal crank up antenna to someone in the Stone Mountain area. I hope to find the car again and see if it is available. If you own this car or know where it might be, please call me at 404-939-0805 or email me at kmolinell@gmail.com.
-Ken Molinelli-

Rare Studebaker book available: M. D. Sherer and Company has copies of the book, *Studebakers in History* for sale. The book is a compilation of articles from 1902 through 1983, including hundreds of articles and photos. 386 pages. Price varies from \$25 to \$40 depending on the condition of the book. See full details at www.mdscherer.com/books online.

1963 Champ pickup, \$7500. This 63 Champ was restored/customized in 1984 and 85 by Jim Fisher and Chuck Lampman. The cab and box were removed, repairs to the cab floor were made, they were laboriously stripped and sandblasted, and dents removed. The original six was replaced with a carefully rebuilt 259 V-8 and T-86 overdrive transmission. Jim Fisher 770- 928-7841.
