Editor Commentary

By Tim Taylor

Guadalupe and I had a super busy life during the months of November and December. We were selling a house that needed to be vacated right away, and at the same time we were purchasing a house on a shortened timeframe of 2 1/2 weeks rather than the normal 4-week cycle. We were swamped. As we were knocking ourselves out to vacate the house we sold, one of our challenges was to find places to temporarily store four old cars and a trailer until we completed the purchase of the new place. I managed to find places for all of them not far from the new house, but then there was the task of moving them about 100 miles from the old house to somewhere close to the new one. After considering options like trailering or hiring an auto transport company, I made the difficult decision to drive each one, one at a time, one per day on different days. On each occasion, Guadalupe followed me in our Honda Odyssey. I mapped out a route that avoided interstate highways because I knew we would be slow. Surprisingly, all of the old cars made the trip without incident. I was biting my nails quite a bit when I drove the 1953 DeSoto. I had never driven that car so far at one time. We were making people mad as we cruised along at 40 to 45 mph. The '60 Studebaker Champ pick-up had no trouble keeping up with the flow of traffic. The other vehicles were a 1985 Chevy van and a 1956 Ford. So we are finally settled in. Our new place is in Hiram, GA. The house came with an attached 3-car garage as well as a detached 50 X 37 shop plenty large enough to park our collector vehicles. The guy who sold us his house had been using the shop for a hotrod-building business, but we will use it just for storing the cars and doing minor work on them. Well, we hope your holidays were great, and we look forward to seeing you at the February meeting.

SOME THOUGHTS ON RESTORING A STUDEBAKER

Written by Chuck Lampman, this 99-page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included

in the book as well as updates and several new items written after the *Turning Wheels* series was published. “Some Thoughts” is aimed at the first-time restorer but will be of value to the more experienced. It is not intended to be a “how to restore” book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage. Payment can be made through PayPal sent to chuck@lampman.com or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293.

Contact Chuck Lampman directly for purchases outside the continental U.S.

RESTORATION CANDIDATE

There is a 1962 **Studebaker Lark 6**, light blue 4-door in Griffin, Georgia, that can be had for about \$500. I do not own it but have looked at it closely on several occasions and I think that it is in good enough condition for a project car. I would buy it myself, but am finishing up getting my '62 Lark Regal V-8 4-door on the road after 5 years of restoration and don't have any place to store another vehicle. It would be great if someone out there could SAVE ANOTHER Studebaker for prosperity. Interested people may contact me: Robert Langford at work 770-227-2239 -- and I will be happy to give more details.
