**PRESIDENT'S PROSE**

By Ben Alspach

**"Keep 'em Rolling"**

I thought I had a pretty good plan for International Drive Your Studebaker Day (IDYSD) last Saturday. Janet and I were to meet some friends for breakfast at a local Cracker Barrel restaurant and I was going to drive our coupe'. It should have been ideal...light traffic, fairly close to home, cool morning temps and a good, busy spot to let folks "notice" our nifty Studebaker.

Unfortunately, at 7:30 AM it was raining buckets at our house and I wasn't going to drive the coupe' in that deluge. We ended taking one of our everyday cars to breakfast. I was a little disappointed but, hey, you can't control the weather.

Fortunately, the rain soon passed and, by lunch time, it had turned into a pretty day in Acworth. I still had some errands to run and the Stude needed a little fuel so we hit the road. Just a couple of minutes from home, I encountered a '49 or '50 "shoe box" Ford at the traffic light and we exchanged the usual nods and waves. Further up the line, I came across a small group of young adults standing beside a very nice vintage Jaguar (maybe late '50's?). When they spotted my car, there was a lot of pointing, waving and "thumbs up." Naturally I was obligated to honk and wave as I rolled by. This was turning into a nice little run.

After a quick stop at the post office and a brief exchange with an old gentleman in the parking lot who once owned a Lark, I headed to the gas station. As I pulled in, a guy in a sharp '66 GTO was just leaving and managed to squeal his tires a little as he exited the premises. The GTO ruckus attracted some attention and several noticed my funky looking black coupe' as I pulled up to the pumps. I was barely out of the car when a fellow approached to check out the Stude and we chatted while I put in some gas. He said he'd never seen a coupe' like mine and gave the car a good walk-around as we talked.

As I was squeezing the last couple of drops from the gas nozzle, a bright, red, mid-50's street rodded GMC pick-up pulled up to the next island. He nodded. I waved and the guy who'd been checking out my car headed that way to inspect the spiffy truck. On the way home, I passed a Corvair convertible and, once again, waves were exchanged. The big dog in the back seat of the ragtop looked happy, too.

Although I wasn't involved in any organized show or event for this year's IDYSD and didn't sign (Continued on Page 5...See President.)

**Editor's Note:** Election of officers for 2015 will be coming soon. While there are incumbents for some positions willing to run for re-election, everyone who is interested in holding an office is encouraged to volunteer. Nominations (and volunteers) will be taken at the November meeting with elections at the December meeting.

I have volunteered to be the newsletter editor in 2015; however, if there is a member who wants to be the editor, I will step aside. I also will help a new editor by providing publishing software along with instruction (if needed) and templates. If you are interested in waiting to become the editor in 2016, please speak up now and you can ease into it during 2015. Again, I will help you all that I can.

The North Georgia Chapter was well-represented at the Tri-state Meet in Maggie Valley, NC. Fourteen members attended. Mike and Marsha Byrd, Edward Burris, Billy and Charleen Carey, Sam and Kathy Ensley, and John Hollier all won first place with their Studebakers. Charlie and Hellen Attaway won Best in Show with their 1951 Studebaker. Also attending were Buddy and Dot Hunt and the Jim and Kathy Palmer. Good show, guys!

Don't forget that the Southeast Zone Meet will be held the first weekend in October in Nashville TN.

Thought for October: "There is no season when such pleasant and sunny spots may be lighted on and produce so peasant an effect on the feelings, as now in October." Nathaniel Hawthorne

## TECHNICAL TOPICS

(The following article is reprinted with permission and without editing from the July/August 2014 issue of *The Copper Starlight*, the newsletter of the Southern Arizona Chapter SDC, June Kaiser, Editor, and originally published by Jerry Blount in the Northwest Chapter SDC newsletter.)

### New Studebaker Radiators

The cost of radiator repair/replacement has become expensive recently. There was the time that good used or repairable radiators were common—but now these radiators may be 50 plus years old.

We have also heard about substitute radiators for our Studebakers, with much cutting and adaptation

required. It happens that there is an after-market new aluminum radiator that is about a 98% bolt in for '61 to '66 Studebakers. 1961 and up Lark, Hawk, and Champ pickup radiators will physically interchange. '58 to '60 radiators will also interchange with '61 and up excepting the lower fitting (outlet) is a couple of inches more toward the center. This can be handled by using the appropriate lower hose. There were, of course, differences in the various models regarding core thickness, number of rows, transmission coolers, etc.

The new available aluminum replacement radiator is intended for '72 to '86 Jeep CJ Series, but only for applications with a Chevrolet or MoPar V-8 conversion. This radiator has the upper and lower fittings reversed from the original CJ radiator—now upper left and lower right—just what our Studebakers need.

The overall width is correct. The height is about 1" less. Best of all it is mounted with a rear flange. The flange doesn't run the full height of the radiator, so at the worst you will need to drill four holes to mount the radiator to the support, using the 5/16-18 thread forming cap screws. On a Hawk with a fan shroud, you will also have to use these new holes to mount the fan shroud or trim clearance for these new bolt locations and mount the shroud at the original bolt locations.

The part numbers are Champion EC1919 (2 row) and CC1919 (3 row). They can be ordered through eBay or Amazon, and may be listed by several dealers. I got mine from Kool Radiator in California. I had ordered a Champion EC1919 but received substitute AE1919. AE means American Eagle—also made by Champion. -In China, I might add that they had "no stock" of the EC1919 so the AE1919 was an upgrade since it had 1" cores but still a 2 row.

That was all fine except the lower fitting was 1-3/4" diameter. Their specifications said the upper and lower were both 1-1/2". which is what we Stude owners would want.

I did have a conversation with Kool Radiator, and they thought the lower should have been 1-1/2". After all, that is what the specs said. They had a big inventory of CC1919 three row radiators, but not close enough for them to physically check.

My last call from them said "maybe" their specification was wrong and "maybe" the lower was 1-3/4" diameter. The EC1919 2 row radiators—now out of stock—was about \$170, including shipping. The CC1919 3 row radiator—now plenty of stock—is about \$220, including shipping. I don't have specific pricing on the AF1919 I got as a Continued on Page 5...See Technical.)

#### Announcements

##### A. Ben

1. Announced that members who participated in the Maggie Valley meet did very well. The Attaways won best in show and the Ensleys, Careys, Byrds, Holliers and Ed Burris all received first places.
2. Thanked the Lees for arranging the 2015 meeting schedule.
3. Thanked Marsha Byrd for taking minutes at the August meeting.

B. Terry announced that she needs a substitute secretary to take the minutes for the October meeting as she and Wayne will be out of town.

Reports: Bill Delli (Treasurer) Balance 8/1/2014 was \$5230.15. Balance 8/31/2014 was \$5267.75. Complete report in The Hillholder.

#### No Unfinished Business

#### New Business

##### A. Ben

1. Announced that the ballot for 2015 officers needs to be ready by the November meeting as elections will be held at the December meeting. Need candidate(s) for Vice President. Ballot is Wayne Ziemer-President, Terry Ziemer-Recording Secretary, Barbara Miller-Membership Secretary, and Bill Delli-Treasurer. Anyone interested in running for any of these offices may do so.
2. Announced that he has Studebaker brochures for anyone who wants them.
3. The August 2014 Turning Wheels has the results of the membership survey that Wayne Lee worked on.

The next meeting is Sunday, October 5 in Euaharlie GA, hosted by the Malins.

Rochelle Ziglin moved, Ron Martinez seconded, to adjourn at 3:21 PM. Motion carried.

Door prizes were given out. Alan and Rochelle Ziglin won \$31.00 in the 50/50 and a vintage special edition car collector magazine. The North Georgia SDC banked \$32.00.

(President...Continued from Page 2) up any new club members, I ended up feeling pretty good about my little Saturday outing. I saw some fun cars, talked to some nice people, gave the coupe' a little "exercise" and was probably noticed by dozens of folks during the course of my brief 45 minute excursion. My point? You don't need to wait for a "special occasion" to drive your car. Just jump in, hit the road, and enjoy the experience. With a car like a Studebaker, the fun will find you if you "keep 'em rolling." See you in October! ###

(Technical...Continued from Page 3) substitute but I think it is around \$200.

Most of us Studebaker owners will want the CC1919 3 row, and just "maybe" it has a 1-1/2" lower fitting. If in fact we have to deal with a 1-3/4" lower, it can be done. On Lark V-8 applications, using an Avanti lower hose would take care of it.

On a Hawk, using a sort piece of 1-1/2" to 1-3/4" hose with a short piece of 1-1/2" tubing would adapt it. Or use a flex radiator hose as another approach, although I am not a fan.

You can buy these through eBay or Amazon or direct from Kool Radiator in California. (714) 599-3336. Ask for Brent.###

## NORTH GEORGIA CHAPTER SEPTEMBER 2014 MEETING

The September meeting of the North Georgia Chapter started with a pre-meeting program at Cool It Auto Air, arranged by hosts Melvin Bohannon and Suzana Williams. There was a tour of the business followed by a presentation from owner Mark Pesselato that was both informative and interesting. Mr. Pesselato also fielded many questions from members.

After the visit to Cool It Auto Air, the Chapter meeting was held at the Bay Breeze Seafood Restaurant. The menu offered all types of seafood for every palate ranging from various species of fish to lobster to scallops. The fried pickles started the meal out right. Members seemed to enjoy their seafood feasts and the usual good conversations.

## STUDEBAKER MEDIA

### SOME THOUGHTS ON RESTORING A STUDEBAKER

Written by Chuck Lampman, this 99 page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included in the book as well as

Updates and several new items written after the *Turning Wheels* series was published.

"Some Thoughts" is aimed at the first time restorer but will be of value to the more experienced. It is not intended to be a "how to restore" book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage.

Payment can be made through PayPal sent to chuck@lampman.com or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293. Contact Chuck Lampman directly for purchases outside the continental US. (SEP 2014)
