**A WORD FROM  
THE PRESIDENT**

By Wayne Ziemer

Hi everyone. By the time this newsletter is here, it will be spring and time to get some driving in. When I got my Studebaker, I thought I would be going to lots of car shows and driving around town; but it seems like there were always other activities that interfered. Last year was a busy year of traveling for Terry and me and I think we got to just one car event. This year, we will be staying home more so chances are greater that we will attend more car events. I have already asked North Georgia member Mike Byrd for help if my Studebaker won't start! Going to car shows is fun. Lots of younger people have never seen a Studebaker and it's fun talking about the car, even though I have little knowledge. As for driving the car, I really trust myself less than the car on longer treks and I've yet to take it on the freeway!

The North Georgia Chapter keeps rolling along as we lose some and gain some members, often the way clubs go. Hopefully, we can attract some younger people who are intrigued with the car's history and design and want to own one. Some ideas for club promotion:

1. Make sure North Georgia members have info about the Chapter to distribute at car shows they attend.
2. Mention the Chapter at other car clubs people belong to.
3. Give a presentation about Studebaker to groups: clubs, civic groups, adult education, etc.
4. Place ads in community newspapers.

The subject of whether to use some of the money we have in the North Georgia Chapter treasury for outside projects has been mentioned. I thought of some possibilities that would benefit the Chapter and others:

1. Fund a scholarship for voc/tech school.
2. Buy supplies or equipment for voc/tech school.
3. Donate an old car to voc/tech school. (They probably would like to make a hot rod rather than restore!)
4. Continue donating money to ALS.
5. Continue to sponsor the car at the Studebaker Museum.
6. Fund play equipment at a park.

Having some activity with the monthly meetings is fun. I definitely have learned a lot from museums and shops the North Georgia Chapter went to last year. The meeting host or anyone else can organize something near the meeting site. I have a couple of thoughts for our hosted meeting in Loganville in July.

For those interested in purchasing a "new" Studebaker, Ebay has 3-5 new listings for sale (Continued on Page 7... See "President.")

Editors Note: I want to thank North Georgia member Tim Taylor for volunteering to become the next editor of the newsletter in 2016. Please support him as well as you have supported me in this endeavor.

President Wayne Ziemer has written a nice article for this month's newsletter. It is on page 2. Thanks, Wayne.

Not much else to mention this month. Bill and I have started on the garden. The weather is finally nice enough that Bill can resume the restoration of our 1951. Maybe it will get finished this year. We have high hopes anyway.

Looking forward to seeing you at the April meeting in Blue Ridge. It should be beautiful. Note that the meeting is on the **second Saturday of the month**. Don't forget the Southeast Zone Meet in Spanish Fort AL the following weekend.

Thought for April: "Spring shows what God can do with a drab and dirty world." Virgil A. Kraft (20<sup>th</sup> Century Author and Photographer)

###

## TECHNICAL TOPICS

(The following feature is an excerpt from the March 2015 column "Odds 'N' Ends" written by Pete Yuen, retired SDC newsletter editor. Pete writes this especially for newsletter editors.)

The noted differences between sand blasted parts and plastic blasted parts: the conclusion made was that the plastic blasting left the metal surface smoother and some rust remained in the pits of the metal.

Sandblasting seem to have eliminated the rust but left the metal rougher. This may not be a bad thing as primer and paint should stick better to the roughened surface.

\*\*\*\*\*

When purchasing a used vehicle, one of the things to look at is the wiring to help determine if the car had been involved in a major fender bender. Caution flags should go up when you see the use of new wiring and splicing of wires or if the original had been tampered with in the engine compartment or the trunk area.

Examine the wiring closely, then check the warning lights on the instrument board to see if they are operational with the ignition switch turned on before the engine is started. You should see (in cars so equipped) 1-Engine or engine check warning light, 2-Oil pressure light, 3-Alternator or battery warning light, 4-Temperature warning light.

### CHECK OPERATION OF LIGHTS AND GAUGES WHEN THE ENGINE HAS BEEN STARTED.

\*\*\*\*\*

### A LITTLE BIT OF HISTORY

Ever wonder about the history behind some things in the North Georgia Chapter? Past issues of The Hillholder often provide a trip down memory lane that satisfies our curiosity. The first segment below is reprinted from the January 1988 issue of The Hillholder.

**"Some additional pocket change...**to put a little extra by, to fund the occasional picnic or other function, the membership voted to initiate a "50-50" raffle. While this somewhat resembles fund-raisers carried on by some of our northern neighbor states, and California, it isn't quite as grand in its scope, and it funds a much more worthwhile endeavor! What we'll be doing is soliciting \$1.00 contributions for a drawing to be held at each meeting-half of the proceeds go to the club treasury and half to the lucky member who holds the winning ticket. Kind of like a car auction, or something like that!"

(Editor's Note: So now you know how the 50/50 drawing got started—over 27 years ago.)

Also interesting to note is that the same January 1988 newsletter contained a discussion of Chapter dues. It pointed out that the annual dues for the North Georgia Chapter were \$10. Our 2015 dues are also \$10. How many things today cost the same as in 1988? I challenge you to name just one—besides North Georgia Chapter dues, of course!. By the way, the National SDC dues back in 1988 were \$15.

NORTH GEORGIA CHAPTER SDC  
MEETING MINUTES  
SUNDAY MARCH 1, 2015  
ROOSTER'S CAFE, CUMMING GA

Vice President Barbara Miller called the meeting to order at 3:00 PM. She welcomed everyone to the meeting and thanked the meeting hosts John and Arlene Hollier. Sign-in sheet was passed around. It was noted that Wayne and Terry Ziemer are out of town, Alan and Rochelle Ziglin are visiting their son's family in Texas and Wayne and Ann Lee are both under the weather with bad colds. There were no new members or guests present.

Barbara also told everyone that 50/50 tickets were being sold and that anyone interested could see her. She also verified that everyone had a door prize ticket.

Barbara requested a motion to approve the minutes of the last meeting. Edward Burris made a motion to approve the February 2015 meeting minutes as published in the March 2015 issue of The Hillholder and Charleen Carey seconded the motion. The motion was approved by a unanimous voice vote.

Barbara then requested a motion to approve the January 2015 Treasurer's Report as published in the March 2015 issue of The Hillholder. John Hollier made the motion and Chip Branch seconded. The motion was approved by a unanimous voice vote.

Barbara congratulated those North Georgia Chapter members with March birthdays/anniversaries.

#### **Announcements**

1. John Hollier thanked everyone for the sympathy cards, messages and condolences received when his mother passed away. The thoughtfulness of the North Georgia members was appreciated.
2. John also extended an invitation to the North Georgia Chapter from the Jaguar Club to attend their meeting on Saturday, March 28, 2015, at Chateau Elan in the Cafe' Elan to be followed by a caravan of cars to visit Panoz Cars in Hoschton GA. Details will be sent to North Georgia members by Charlotte Delli, Newsletter Editor.

#### **Reports**

1. Edward Burris (National Board of Directors): National SDC is trying to update the list of those members with lifetime memberships to verify those who are still living. Apparently, the National SDC is not being notified when lifetime members pass away and continues to send the *Turning Wheels*. There are 68 lifetime members on file for the Southeast Zone. (North Georgia members Chuck Lampman and Marilyn Tilden are lifetime members. Lifetime memberships are no longer offered by the National SDC.) Edward has sent letters to all on the list and requested responses so the Southeast Zone list will be current and the expense of sending the *Turning Wheels* to deceased members will not be incurred. On another note, it has been suggested at National level that term limits for officers be changed to unlimited terms. No action has been taken on the suggestion yet.
2. Bill Delli (Treasurer): Beginning balance February 1 2015 \$5451.12. Ending balance February 28, 2015 \$5597.47. Details to be published in The Hillholder.
3. Barbara Miller (Membership Secretary): Fifty households have renewed their membership for 2015 plus 1 new member has joined. Notification has been received from Chris Collins that he is not going to renew his membership; he has sold his Studebakers and moved to North Carolina. Barbara will send reminders to those who have not paid their 2015 dues yet.
4. Charlotte Delli (Newsletter Editor): Nothing to report.

**Unfinished Business:** Barbara mentioned that a new newsletter editor would be needed in 2016. She pointed out that the newsletter was the backbone of the club and that several Southeast Zone chapters whose newsletters had become inactive were going downhill. Tim and Guadalupe Taylor volunteered to become the next newsletter editors for the North Georgia Chapter. Charlotte has volunteered to provide publishing software and templates to help them get started.

**New Business:** Several members will be attending the 47<sup>th</sup> Southeast Zone Meet in Spanish Fort AL in April. It was suggested that members might want to caravan there since the trip is six hours. Interested members should check with Barbara.

The April meeting of the North Georgia Chapter will be Saturday, April 11, 2015, in Blue Ridge GA. Hosts will be Jim and Carol Nichols. Details will be in the April issue of The Hillholder. This will be the **second** Saturday of the month.

Charleen Carey motioned to adjourn the meeting and Chip Branch seconded. The meeting adjourned at 3:25 PM.

Door prizes were presented. 50/50 drawing of \$30.00 was won by Tim Taylor. North Georgia received \$30.00.

Submitted by Charlotte Delli, based on meeting notes taken by Lori Healy in the absence of the Recording Secretary.

## ***A South Bend Truck Partner***

By Dan Kuhl

**T**he year is 1920; the place is South Bend, Indiana. Edwards Iron Works (EIW) is organized into a company. Much like the Studebaker Manufacturing Company, EIW is a family concern. It is started by W. Howard Edwards, President, and his brother James. E. Edwards, Treasurer. I.E. Edwards is Vice-president and F. E. Edwards is Secretary. The company begins in a small wooden structure as did the Studebakers 70 years earlier.

The plant, located at 2025 South Main, became one of the largest structural steel manufacturers in the Midwest. Early on, the business expands sufficiently that additional manufacturing facilities are needed. To accommodate the needed space the Edwards brothers agree the old family log cabin should be raised to make room for the expansion. The family's great-great grandfather had built the cabin in 1832,

The business continued to grow from a regional force to a national provider of steel products. In 1929 the company had to move to larger quarters wight blocks south of the old factory. At their new address EIW developed a close relationship with Studebaker. In 1930 Studebaker expanded their truck line. EIW furnished cabs, bodies, and special equipment for the Studebaker built trucks. Production of these truck parts complemented EIW's leadership in the existing business of manufacturing truck semi-trailers. Another significant happening in 1930 was the construction of Notre Dame Stadium. Under the direction of Knute Rockne, the "House That Rockne Built" was completed in six months with EIW providing much of the structural steel used in the project.

As with all industry, the 30's were a difficult time for Studebaker. In March Studebaker went into receivership with a \$6,000 claim against the automaker by Edwards Iron Works. In December Studebaker sought the services of W. Howard Edwards to manage the truck division, a position he filled until February 1936. Under his leadership Studebaker released the popular cob-over-engine type truck that beat the competition to market by two to three years. In May 1936 the same Mr. Edwards bought out his brothers to form a new corporation.

Soon after this latest incorporation, EIW announced plans for a new travel trailer manufacturing facility located in an old Oliver farm equipment building located on Walnut. Upon completion, the plant would be the largest factory in the world devoted entirely to the building of travel trailers. The new trailer would be known as the "Edwards Home-mobile." Ralph H. Wise was hired on as Chief Engineer; he came to EIW after designing the 1937 Hudson, International trucks, and the 1934-35 Studebaker trucks. Two years after starting the trailer business, it failed in 1938 with another down-turn in the economy. EIW continued to prosper in their other steel manufacturing activities. They continued to assist Studebaker on various projects. Most noteworthy was the mini-box used in the Champion coupe to convert it to ¼ ton cargo carrying small truck. It was called the Coupe-Delivery and was manufactured from 1939 to 1941. The smallest truck offered by Studebaker in 1940 was the one-ton Fast Transport. As it had 10 years earlier, EIW helped Studebaker fulfill its truck customer obligations.

Sadly, in 1951 Edwards Iron Works was purchased by COPCP Steel out of Detroit, Michigan. And, as with Studebaker, the new owners were plagued with big corporation woes that included bouts with labor strife that continued into the 60's.

Editor (from *The Echo*) Note: Another example of the Coupe Delivery is featured on the back cover of the March 2015 *Turning Wheels*.

Reference material for this article is from the Local and Family History Services at the St. Joseph County Public Library (main branch).- *South Bend Tribune* 1926 to 1962 and the *South Bend News Times* 1936 to 1938.

#####

(President...Continued from Page 2) almost every day. I just discovered a Facebook site about Studebakers called "Studebaker Addicts (International)." There are 2725 members. There was even a picture of Tom Elliott's Business Coupe'.

Good driving and hope to see lots of people and their cars up in Blue Ridge for the April meeting. I'm wishing for nice weather! Who knows, I might even have my car road-ready by then!

## STUDEBAKER MEDIA

### SOME THOUGHTS ON RESTORING A STUDEBAKER

Written by Chuck Lampman, this 99 page book is based on articles written by Chuck Lampman, North Georgia Chapter SDC member, that appeared in *Turning Wheels* in the early 1990's and won the SDC Churchill Award for Best Article, Non-paid. Some material edited out of *Turning Wheels* is included in the book as well as updates and several new items written after the *Turning Wheels* series was published.

"Some Thoughts" is aimed at the first time restorer but will be of value to the

more experienced. It is not intended to be a "how to restore" book but gives a look at the decision-making processes, tools, spaces, and basic skills needed to do a restoration. It also provides a framework to help structure a project and contains several chapters of Studebaker-specific advice.

Cost for the book shipped to continental US addresses is \$22.50 plus \$4.00 for handling and postage.

Payment can be made through PayPal sent to chuck@lampman.com or by mailing a check or money order to Chuck Lampman, 4141 Lynette Court, Kennesaw GA 30144-2293. Contact Chuck Lampman directly for purchases outside the continental US. (MAR 2015)

## NEED NEW OR USED STUDEBAKER PARTS?
